

Pupil Premium Strategy St Louis Catholic Academy three year strategy 2021/2022, 2022/2023 and 2023/2024

Our philosophy

At St Louis Catholic Academy, we believe in maximising the use of the pupil premium grant (PPG) by utilising a long-term strategy aligned to the SDP. This enables us to implement a blend of short, medium and long-term interventions, and align pupil premium use with wider school improvements and improving readiness to learn.

Overcoming barriers to learning is at the heart of our PPG use. We understand that needs and costs will differ depending on the barriers to learning being addressed. As such, we do not automatically allocate personal budgets per pupil in receipt of the PPG. Instead, we identify the barrier to be addressed and the interventions required, whether in small groups, large groups, the whole school or as individuals, and allocate a budget accordingly.

Our priorities

Setting priorities is key to maximising the use of the PPG. Our priorities are as follows:

- Ensuring an 'outstanding' teacher is in every class
- Closing the attainment gap between disadvantaged pupils and their peers
- Providing targeted academic support for pupils who are not making the expected progress
- Addressing non-academic barriers to attainment such as attendance and behaviour
- Providing a broad and balanced curriculum for all children
- Developing independent learners with the skills to progress well
- Ensuring that the PPG reaches the pupils who need it most
- Responding to mental wellbeing needs of disadvantaged pupils

Barriers to future attainment

Academic barriers to attainment	Non-academic barriers to attainment	
Delay in achieving ELGs	Poor attendance	
Poor language and communication skills	Poor resilience and listening skills	
Early career teachers need support to maintain outstanding teaching	Lack of parental engagement	
Need to develop TAs to provide high quality short-term targeted support	Lack of confidence to aim high, stay positive and problem solve	
Not arriving at school ready to learn	Lack of focus and confidence due to poor mental health and wellbeing	

Our implementation process

We believe in selecting a small number of priorities and giving them the best chance of success. We also believe in evidence-based interventions and learning from our experiences, which is why we utilise annual light-touch reviews to ensure our approach is effective and we can cease or amend interventions that are not having the intended impact.

We will:

Explore

- Identify a key priority that we can address
- Systematically explore appropriate programmes and practices
- Examine the fit and feasibility with the school
- Be aware of wider funding opportunities that can be accessed to support disadvantaged children to excel

Prepare

- Develop a clear, logical and well-specified plan
- Assess the readiness of the school to deliver the plan
- Make practical preparations

Deliver

- Support staff and solve any problems using a flexible leadership approach
- Reinforce initial training with follow-on support
- Drive faithful adoption and intelligent adaption

Sustain

- Plan for sustaining and scaling the intervention from the outset
- Continually acknowledge, support and reward good implementation practices
- Treat scale-up as a new implementation process

Our tiered approach

To prioritise spending, we have adopted a tiered approach to define our priorities and ensure balance. Our tiered approach comprises three categories:

- 1. Outstanding teaching
- 2. Targeted academic support
- 3. Wider strategies

Within each category, we have chosen interventions. This focussed approach ensures the best chance of success for each intervention.

Quality of teaching

- 1. Trust support to develop excellence in teaching practice with a focus on reading and writing.
- 2. Investment in a programme of maths training to improve the quality of maths teaching.

- 3. A robust CPD development programme supporting teachers and support staff in delivery high quality teaching and learning within the classroom
- 4. Professional development: Use of appraisal to identify staff development needs that contribute to improved teaching and support to learners
- 5. Support for early career teachers: additional training and mentoring to develop their best practice

Targeted academic support

- 1. Structured interventions: Introducing interventions for pupils using PiXL assessment to identify gaps in learning and to provide short term therapies to close learning gaps
- 2. Small group tuition: Introducing targeted English and maths teaching for pupils who are below age-related expectations
- 3. Small group tuition: Introducing targeted English and maths teaching for pupils who are at age-related expectations and with support can achieve GDS
- 4. One-to-one support for disadvantaged pupils: Creating additional teaching and learning opportunities using TAs

Wider strategies

- 1. Access to learning of a musical instrument to improve concentration and focus
- 2. Participation in Skillsbuilder to develop a range of positive learning behaviours
- 3. Participation in Forest School and other extracurricular clubs
- 4. Foster links with parents using extracurricular taster sessions that bring families into school
- 5. Participation in working towards Artsmark Silver Award to widen authentic cultural offer Full planning details for interventions are outlined in the 'Intervention planning in full' section.

Our review process

Annually reviewing a one-year pupil premium plan and creating a new plan each year is time-costly and ineffective. This three-year approach allows us to dedicate more time up-front and introduce light-touch reviews annually.

During a light-touch review, we will review the success of each intervention, based on evidence, and determine the most effective approach moving forwards – adapting, expanding or ceasing the intervention as required.

Individual targets are set for each pupil in receipt of the PPG and their progress towards achieving these targets is analysed at the end of interventions, supported by PiXL.

The progress of pupils in receipt of the PPG is regularly discussed with class teachers and at termly performance review meetings.

Performance data, including that for PPG learners is presented to Governors termly.

Once the three-year term has been completed, a new three-year strategy will be created in light of the lessons learned during the execution of the previous strategy, and with regard to any new guidance and evidence of best practice that becomes available. The Head of School is responsible for ensuring a pupil premium strategy is always in effect.

Accountability

Ofsted inspections will report on the attainment and progress of disadvantaged pupils in receipt of the PPG.

The school is held to account for the spending of the PPG through the focus in Ofsted inspections on the progress and attainment of the wider pupil premium eligible cohort; however, they will not look for evidence of the grant's impact on individual pupils, or on precise interventions.

The school publishes its strategy for using the pupil premium on the school website.

The school publishes a link to the <u>school and college performance tables</u> and the schools' performance tables page on the school website.
